TECHNICAL SKILL SET

1. Languages: C, Java
2. Web Technologies: HTML, JSP, SERVLETS
3. Operating Environments: UNIX, Windows
4. Packages: MS OFFICE
5. Databases: MySQL

PROJECT EXECUTION SKILLS

- | | |
|---|---------------------|
| • Mitigating Insider Data Theft Attacks in Clouds
Role: Team Member
Technical Environment: HTML, JSP
Description: This project proposes a completely different approach to secure the cloud using decoy information technology, that is called as Fog computing. The decoys serve two purposes: validating whether data access is authorized when abnormal information access is detected and confusing the attacker with bogus information. | Team Size: 3 |
|---|---------------------|

- **Shopping Cart**

Team Size: 3

Role: Team Member

Technical Environment: HTML, JSP, Servlets, Ajax

Description: This project deals with shopping online. This cart provides users with many facilities where user can shop from his home. Our shopping cart software has all of the features that are required to provide a user friendly experience to users to shop.
